

## **Interagency Review Team (IRT) 2017 meeting schedule - Revised**

The SAC IRT follows the Mitigation Banking process to review documentation for the establishment and management of mitigation banks as outlined in §33 CFR Part 332 – Compensatory Mitigation for Losses of Aquatic Resources.

The IRT welcomes the opportunity to provide input on your proposed bank prior to you moving forward with a Draft Prospectus. We have set aside 3 meeting dates (\*) to allow for the maximum number of IRT members to be present for presentations. The IRT will make accommodations to include project presentations at all meetings. If you would like to present a project at one of the IRT meetings, please send a request to: [SAC-RD-MitigationTeam@usace.army.mil](mailto:SAC-RD-MitigationTeam@usace.army.mil). The Proposed Bank IRT Presentation Guidance is posted on the Charleston page in RIBITS and can be found on the SAC District Regulatory website at: <http://www.sac.usace.army.mil/Missions/Regulatory/Compensatory-Mitigation/>.
